

## ACCEL Suite

Accelerating the Blueprint of Training,  
Straight from the Source

### WHAT IS IT?

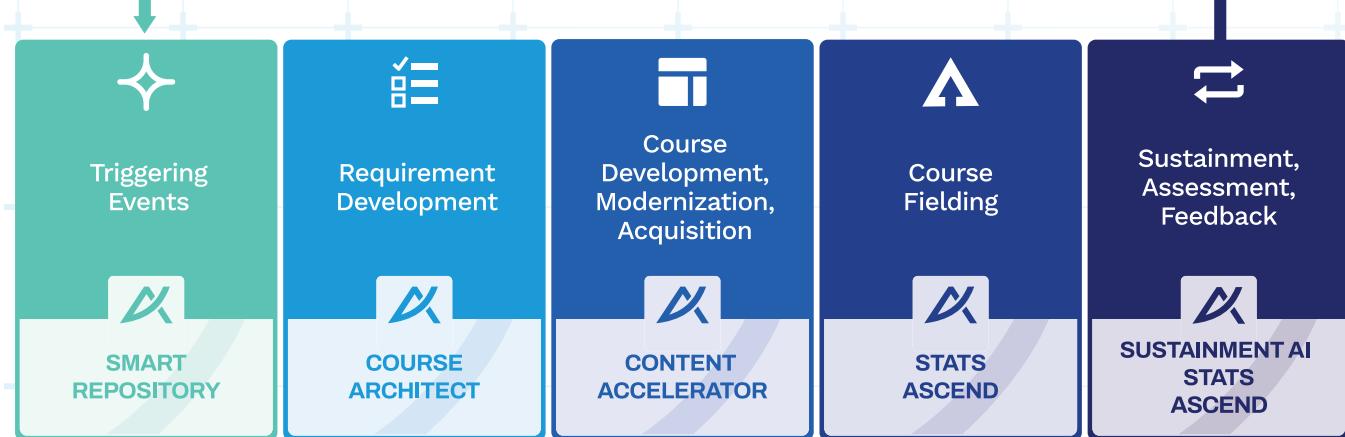

The Accelerated Course Creation and Enhanced Learning (ACCEL) Suite is a network-based, AI-powered modular solution that supports the full training lifecycle from rapid design to adaptive, scenario-based learning.

### DEPLOYMENT

The ACCEL Station delivers an air-gapped workstation preloaded with the full ACCEL Suite Core solutions. ACCEL operates seamlessly across environments ranging from unclassified to secure enclaves and deploys within IL5 networks, with IL6 support projected for 2026.

**ACCEL solutions ensure readiness and mission proficiency along the training continuum.**

#### TRAINING CONTINUUM

#### ACCEL SOLUTIONS

[WWW.SOARTECH.COM](http://WWW.SOARTECH.COM)

### COURSE ARCHITECT

A just-in-time design tool that helps instructional designers map training requirements to measurable objectives.

### CONTENT ACCELERATOR

Streamlines courseware development that generates and structures instructional content aligned to learning objectives and cites authoritative data sources.

Major features include:

#### ≡ Pedagogical Agent:

An AI assistant that delivers real-time feedback to evaluate, refine, and predict instructional impact

#### ≡ Smart Repository:

A centralized library of digital assets that can be reused to build and update training materials

### ACCEL SUITE ADD ONS:

#### STATS

AI-driven adaptive training system that personalizes learning and enhances skill development across domains by adjusting content difficulty, pacing, and feedback.

#### Sustainment AI

Continuously analyzes Smart Repository content to flag and suggest updates for outdated or superseded information.

#### ASCEND

Leverage AI to support completion of mission-critical tasks.

#### Professional Services

Comprehensive services for assessment, process improvement, and workforce development.
